

# Father's Day Ties

## Items in kit

- 1 Cardboard tie or a piece of A4 cardstock to make your own tie
- 1 piece of elastic

## You will need:

- Single hole punch ( or a sharp skewer will do the trick)
- Pencils, Textas, glitter, stickers etc, as per your preference to decorate

## Instructions

- Draw a tie on the piece of cardstock if you have not purchased a pre made piece. (use our template if you like)
- Decorate to your liking with decorating items from your kit
- Punch a hole on either side of the knot of the tie, allowing you to then secure the elastic.

Fantastic, now you have your very own tie to give dad on father's day, or any other special occasion that you see fit.
